

COMMERCIAL SERIES

Our Line Voltage Spotlamps

OPTILED shaping the future of light

Durable & Efficient

Our Commercial Series lamps' proprietary temperature and current controls make these line voltage lamps last more than 35,000 hours – many times more than any traditional lighting. And all without the intense heat of halogen!

Alluring Light

The Commercial Series lamps come with a wide variety of changeable diffuser patterns for user flexibility and total beam control. Use the standard 4° diffuser to spotlight an object from a substantial distance. Or switch to a 25° diffuser to flood an area with beautiful, saturated color.

Light Smarter & Safer

Our low-power Commercial lamps use fire-resistant polymers to make them the best choice for the safety conscious. OPTILED's lamps are mercury free and emit NO UV radiation.

Visit us at www.OPTILED.com for more information about our LED lamp & fixture solutions.

Our Line Voltage Spotlamps

COMMERCIAL Series Lighting

Commercial 2.5W | Commercial Series Lamp

Our line voltage Commercial 2.5W spotlamp is perfect for any low power indoor/outdoor spotlighting task. OPTILED's patented RXI optics coupled with a changeable diffuser give any lighting designer the tool to create the look he or she imagines. Can be used with our flexible, watertight lamp holder, "Belt."

Technical Information

Power Consumption | 2.5 W
Operating Voltage | 100 V-240 V
Available Colors | Warm White (3000K), Daylight (6500K), Red, Blue, Green, Amber
Intensity of Light Output | 13lm (WW), 25lm (Day)
Available Beam Patterns | 2°-80° (Changeable Diffusers)
Rated Life | 35,000 hours
OPTILED Item Number | 110105BBAA (WW), 110106BBAA (Day)

Biscuit GX53 | Commercial Series Lamp

Our ultra-slim spotlamp is only 1" thick and it delivers the same power and flexibility as our Commercial 2.5W. It comes in a standard GX53 base with integrated power circuitry to manage 100V-240V of AC input. You will be amazed at how much less heat the Biscuit generates than a comparable halogen bulb!
